## Web Assignment: Seasons with Max

Go to <http://team9titans.weebly.com>

Add to favorites or bookmark this page if you have not already done so.

Run your mouse over "Miss Pluchino (Physical Science)" in the left menu bar.

Click on "Science Web Assignments"

Click on the "Seasons with Max" link.

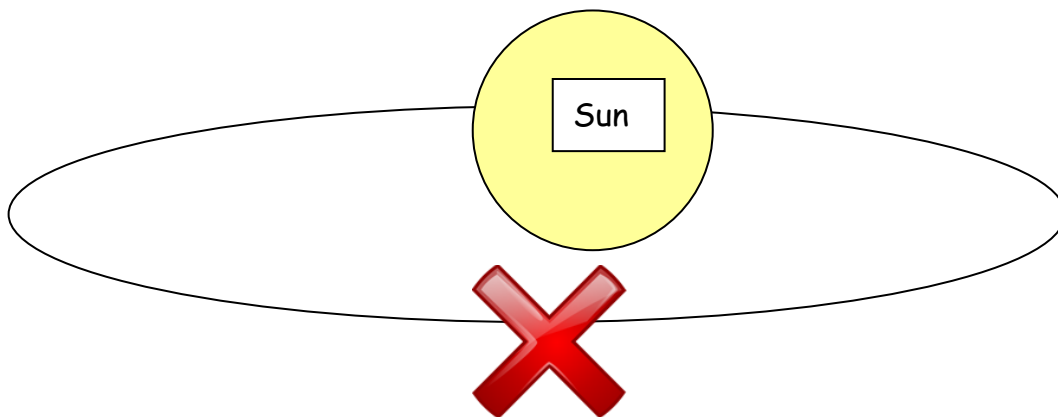

A new window will open. Click on "start"

Watch the "movie" and press "continue" (bottom right) when needed and then help Max and answer the questions.

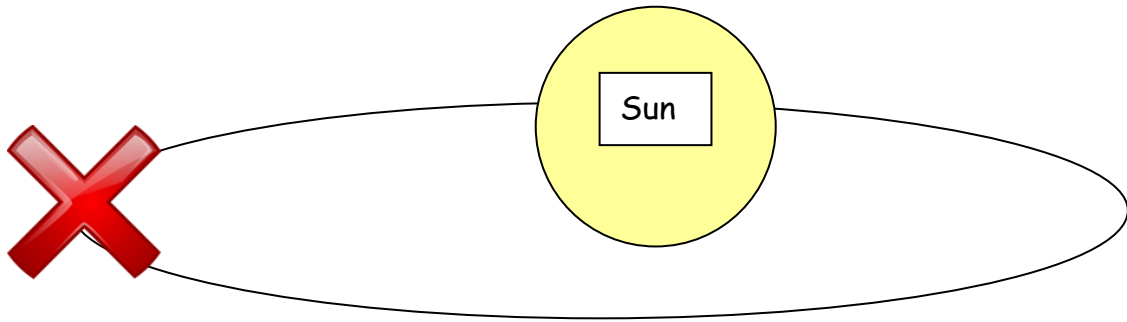

For questions #1-3, move the Earth to send Max where he wants to go and click "send" to see if you are correct. Click "try again" if you need to.

- ✓ Draw the correct answer in the space provided.
- ✓ Also include the direction of the revolution using arrows
- ✓ The tilt of the Earth's axis
- ✓ Indicate where Max was on the Earth using an "x".

1. Draw where you placed the Earth to send Max to Connecticut during autumn.

2. Draw where you placed the Earth to send Max to Queensland, Australia during winter.

3. Draw where you placed the Earth to send Max to the South Pole during summer.
